Education

Pimpri Chinchwad College of Engineering

Bachelor of Technology - Computer Science & Engineering (AI & ML)

Pune, Maharashtra

May 2026

Tuljaram Chaturchand College

Higher Secondary Education (12th Standard)

Baramati, Maharashtra

2020 - 2021

Experience

Full-Stack Developer – Personal Portfolio Website 🔗

August 2024 – Present

- Built a full-stack portfolio with a separate admin panel for content management.
- Developed two React frontends: Portfolio for display and Admin Panel for updates.
- Created a Node.js Express backend with authentication and API endpoints.
- Currently working on cloud deployment with a custom domain.

Technical Skills

Web Development: React.js, Node.js, Express.js, MongoDB

Programming Languages: C++, JavaScript, Python

Cloud Services: AWS (EC2, S3), Cloudinary, MongoDB Atlas

Additional Skills: Problem-solving, REST API Development, UI Design

Projects

Ed-Tech Platform (MERN Stack) 🔗

- Developed a comprehensive educational platform enabling users to generate, access, and evaluate content.
- Implemented client-server architecture using React.js (frontend), Node.js and Express.js (backend), with MongoDB for data management.
- Integrated RESTful API calls to enhance platform responsiveness and user experience.
- Utilized cloud services like Cloudinary for media management and MongoDB Atlas for database hosting.

MBBS Abroad Consultation Platform 🔗

- Developed a comprehensive digital platform to streamline the process of selecting and enrolling in international medical programs.
- Key technologies: AWS (EC2, S3), React.js, Tailwind CSS, KNN-based recommendation system, AI-powered chatbot.
- Implemented a secure user authentication system, KNN-driven college recommendation engine, 24/7 chatbot assistance.

CineFlex - Movie Discovery App 🔗

- Developed CineFlex, a modern movie discovery platform utilizing React.js and TMDb API.
- Implemented features such as GPT-powered search, modern UI, latest movie releases, and user authentication with Clerk.
- Designed a responsive interface for seamless movie browsing and access to detailed movie information.
- Technologies used: React.js, Vite, Redux Tailwind CSS, Clerk authentication.

Achievements

Hackathon and Competition Achievements 🔗

- First place at UI Wars 2024 competition.
- Ranked 40th out of 1500 teams in Vultr Cloud Innovation Hackathon.
 - * Developed AI-Powered Customer Care Platform with AI interactions and video communication.
 - * Technologies: Node.js, React.js, Agora video calls, GenAI chatbot, PHP.
 - * Received \$250 Vultr service credits.
